

Creative Vision

Sacred Spaces Inc. is a liturgical design firm committed to the creation of visionary worship spaces. Through the careful blending of tradition, contemporary aesthetic interpretation, spatial functionality and liturgical order, we design spaces that are both inviting and inspirational.

Our company is located in Alexandria, Virginia, with offices in Italy and Poland.

We follow the guidelines published on art, architecture and worship by the United States Conference of Catholic Bishops in 2000.

Entitled *Built of Living Stones*, this document presents the vision of liturgical space as seen by the Church.

Sacred Spaces also maintains an inventory of consigned items which are available to other churches and qualified religious organizations. Please check with us online for more information regarding this exciting new service.

A Leader in Liturgical Design

Full Service Company

Sacred Spaces' expert staff provides our clients with a full spectrum of ideas and design options. Our services include design concepts, construction documents, project management, project execution and budget estimates.

Our trained estimators provide you with a complete cost analysis and budget breakdown.

Our comprehensive project management division coordinates all aspects of the job and prides itself in finishing each project on schedule and on budget.

Master Artists & Craftsmen

Sacred Spaces designs and creates original liturgical art and statuary, produced by our extraordinarily talented studio artists and by craftsmen from around the world.

Our artists and craftsmen are trained in the Renaissance arts and are skilled in the best contemporary techniques and craftsmanship available today.

Educational Programs and Presentations

Sacred Spaces prepares programs to assist you and your community as you:

- develop educational presentations reflecting Catholic Church history, traditions, liturgical guidelines, etc;
- decide on the best design for your new church or renovation, build parish consensus and priorities
- create budgets and schedules

Consultants

Our consultants assist in researching the iconographic elements required by the projected scope of work.

They also assist in offering parishes a comprehensive educational program which includes an analysis of the theological and liturgical requirements of your project.

Crucifix and statuary designed and commissioned for Our Lady of Hope Catholic Church, Potomac Falls, Virginia. Stations of the Cross were cast and refinished from original Meyer's Stations dating from the late 19th century.
